

**FALL 2007 NPC STUDENTS REPORT**  
**NOVEMBER 2007**

The purpose of the following report is to show the number of students enrolled fall 2007 semester at Northland Pioneer College who are currently attending, or have attended, high schools in our service area.

Criteria for the report:

- student enrolled for a minimum of six (6) credit hours during fall 2007;
- high school in our service area;
  - a minimum of six (6) students from an area high school

The report lists each area high school meeting the six (6) student minimum in order by greatest number of students to the least. For each high school the total number of students claiming attendance from that school and enrolled at NPC is listed first. The next three columns break that total number down to: 1) the number of most recent high school graduates (2004-2007), 2) how many are currently attending the high school, and 3) the number of students from the high school with a graduation date older than 2004, or where the high school graduate date is unknown.
