R7-1-709. Community College Classes Offered in Conjunction with High Schools

Upon a determination that it is in the best interest of a district, a community college district governing board may authorize district community colleges to offer college courses that can be counted toward both high school and college graduation requirements at the high school during the school day under the following circumstances:

- 1 The community college District Governing Board and the governing board of the school district or organization of which the high school is a part shall enter into an agreement or contract that shall, at a minimum, address the following issues:
 - a. All public high school students enrolled for college credit must be currently enrolled for a full-time instructional program as defined in A.R.S. §15-901 in addition to the college course or courses except that high school seniors who satisfy high school graduation requirements with less than a full-time instructional program shall be exempt from this provision
 - b. The responsibility of the community college and of the high school for payment for facilities, personnel, and other costs, and the manner in which the college tuition is to be paid by or on behalf of each student, shall be clearly stated.
- 2. Students shall have been admitted to the community college under the provisions of R7-1-301.C. -- Student Admissions
 - a. All students enrolled for college credit shall be high school juniors or seniors. All students in the course, including those not electing to enroll for college credit, shall satisfy the prerequisites for the course as published in the college catalog and comply with college policies regarding student placement in courses.
 - b. A community college may waive the class status requirements specified in Section 2.a., above, for up to 25 percent of the students enrolled by a college in courses provided under this rule if the community college has established written criteria for waiving the requirements for each course. These criteria shall include a demonstration, by an examination of the specific purposes and requirements of the course, that freshman and sophomore students who meet course prerequisites are prepared to benefit from the college-level course. All such exceptions, and the justification for the exceptions, shall be reported as provided in Section 6.b., below.
- 3. The courses shall have been evaluated and approved through the official college curriculum approval process pursuant to R7-1-703.D., be at a higher level than taught by the high school, be transferable to an Arizona public university or applicable to an established community college occupational degree or certificate program, and meet all other standards for courses established in R7-1-702. Physical education courses are excluded from this program.
- 4. College-approved textbooks, syllabuses, course outlines and grading standards, applicable to the courses when taught at the community college shall apply to the courses, and all students in the courses, when offered under the provisions of this rule. The Chief Executive Officer of each community college shall establish an advisory committee of full-time faculty teaching in the disciplines offered at the community college to assist in course selection and implementation in the high schools and to review and report at least annually to the Chief Executive Officer whether the course goals and standards are understood, the course guidelines are followed, and the same standards of expectation and assessment are applied to these courses as though they were being offered at the community college.
- 5. Each faculty member shall have a valid community college teaching certificate in the field being taught and shall have been selected and evaluated by the college using the same procedure and criteria that are used at the community college. The Chief Executive Officer of each community college shall establish an advisory committee of full-time faculty teaching in the disciplines offered at the community college to assist in the selection, orientation, ongoing professional development, and evaluation of faculty teaching college courses in conjunction with the high schools.
- 6. Each community college district shall annually, by September 1, provide a report to the State Board of community college courses offered in conjunction with high schools during the previous fiscal year. In the case of a multi-college district, the multi-college district shall provide a separate report for each college. This report shall include the following:
 - a. Documentation of compliance with the requirements identified in Sections 3, 4 and 5, above.
 - b. The number of students in each course who did not meet the criteria defined in Section 2.a., above.
 - c. Total enrollments broken down by location, by high school grade level, by course, and by type of program (academic or occupational).
 - d. Summary data on performance of students enrolled for college credit in courses offered in conjunction with high schools, including completion rates and grade distribution.
- 7. Each community college district shall conduct tracking studies of subsequent academic or occupational achievement of students enrolled in courses offered under the provisions of this rule. The report of the results of the first tracking study shall be submitted to the State Board by September 1, 2003 and subsequent reports shall be submitted to the State Board by September 1 of each odd-numbered year thereafter.
 - a. These tracking studies may involve statistically valid sampling techniques and shall include, at a minimum, the following elements: high school graduation rate, the number of students continuing their studies after graduation at an Arizona community college or public university, the performance of the students in subsequent college courses in the same discipline or occupational field, and the student's grade point average after one year at an Arizona community college or university as compared to the student's college grade point average for courses completed while still in high school.
 - b. Upon receipt of the report of these studies, the State Board shall convene an ad hoc committee that shall include community college academic officers, faculty, and others expert in the field to review the manner in which these courses are provided. This committee may make recommendations to the State Board, with a copy to each district governing board, regarding desirable changes in this rule or in the manner in which the rule is being implemented.

Historical Note

Adopted by the State Board on April 16, 1999. Amended by the State Board on January 19, 2001, State Board approved revised language on April 20, 2001. Certified by the Office of the Attorney General on October 10, 2001.

Cochise College Report On Community College Classes Offered in Conjunction with High Schools FY 2001 - 2002

1. <u>Documentation of Compliance/Assurances</u>

- a. That in accordance with R7-1-709(3), Cochise College has complied with all provisions of this paragraph to wit:
 - i. All courses offered in conjunction with High Schools have been evaluated and approved through the official college curriculum approval processes pursuant to R7-1-703(D) (Cochise College Course Outlines are available on-line);
 - ii. All courses offered are at a higher level than that taught by the High Schools;
 - iii. All courses offered are transferable to an Arizona public university as evident at Arizona Course Applicability System; and/or are applicable to an established community college occupational degree or certificate program (2002-2003 Cochise College Catalog); and,
 - iv. Meet all other standards for courses established in R7-1-702.
- b. That in accordance with R7-1-709(4), Cochise College has college approved textbooks, syllabuses, course outlines, and grading standards, applicable to the courses taught.
- c. That in accordance with R7-1-709(4), the Cochise College President has established an Advisory Committee of full-time faculty, teaching in the disciplines offered at Cochise College to assist in:
 - i. Course selection and implementation in the High Schools;
 - ii. Faculty selection, orientation, ongoing professional development, and evaluation of faculty teaching college courses in conjunction with the High Schools;
 - iii. Reviewing and reporting (at a minimum) annually whether the course goals and standards are understood, the course guidelines are followed, and the same standards of expectation and assessment are applied to these courses as though they were being offered in Cochise College classrooms.
- d. That in accordance with R7-1-709(5), all faculty members teaching courses at local High Schools in conjunction with Cochise College are certified in the field being taught and have been selected and evaluated by Cochise College using the same procedure and criteria that are being used at other Cochise College locations.

2. Admission of Students

a. In accordance with R7-1-709(2)(a) & (b), 94.73% of the students enrolled in Cochise College's classes offered in conjunction with high schools were high school juniors and seniors. In addition, all students in these courses, including those not electing to enroll for college credit, satisfied the prerequisites for the course as published in Cochise College's Catalog, and have complied with Cochise College policies regarding student placement in said courses.

THE BRANCH

- b. A total of 22 students (approx. 4%) were high school freshmen or sophomores; however, since the requirement of R7-1-709 was not adopted until October of 2001 (mid-semester) the waver processes at Cochise College were not applicable for the Fall 2001 Semester enrollees totaling 9 students (approx. 1.64%).
- c. In the Spring 2002 Semester, the number of high school freshmen or sophomores enrolled in classes offered in conjunction with high schools and subject to the provisions of R7-1-709(b) totaled 13 (approx. 2.36%). Cochise College waived the class status requirement in accordance R7-1-709 with for these students.
- d. The number of students in each course who did not meet the criteria defined in R7-1-709(2)(a) are indicated on pages 5-6.
- e. Total enrollment for Cochise College's courses offered in conjunction with high schools number 550 (duplicated head count). The total enrollments broken down by location, high school grade level, course, and type of program (academic or occupational) are also contained within pages 6-7.

3. Summary Data on Performance

a. Students taking courses at Cochise College in conjunction with high schools have performed very well throughout this period with 95.82% successfully completing their coursework with a "C" or better as illustrated on this page - Completion Rate & Grade Distribution Count of Students in Courses Offered in Conjunction with High Schools – AY 2001-2002. Less than 1% failed to complete their courses.

Completion Rate & Grade Distribution Count of Students in Courses Offered in Conjunction with High Schools AY 2001-2002

| | Count | Percent |
|--------------------------------------------------------------------------------------------------------------------|-------|---------|
| Successful Completers - Successful Completers are those students who received a Grade of "A" through "C." | 527 | 95.82% |
| Completers - Completers are those students who started and finished a course receiving a Grade of "A" through "F." | 545 | 99.09% |
| Non-Completers | 5 | 0.91% |

6a. <u>Documentation of compliance with the requirements identified in subsections (3), (4), and (5)</u>

In compliance with ACCB R7-1-709, Community College Classes Offered in Conjunction with High Schools, EAC's Planning and Steering Committee serves in an advisory capacity to assist in the selection of courses and their implementation in the high schools. The Committee, established by the College President and chaired by the Chief Academic Officer, is composed of full-time faculty and administrators and meets twice a month to review and make recommendation concerning academic policies, standards, courses, and curricula.

On May 3, 2001, the Committee reviewed criteria for faculty teaching concurrent enrollment courses, criteria for concurrent enrollment courses, and a list of proposed concurrent enrollment courses for the 2001-02 academic year. The Committee also reviewed changes to District Policy 6200.01 Contracting With High School Districts for Delivery of EAC Credit Classes. On June 13, 2001, the Graham County Community College District Governing Board approved District Policy 6200.01.

All high school contracts for the 2001-2002 academic year complied with concurrent enrollment guidelines. The contracts were personally presented and explained to each high school district officer. At the beginning of each semester, all adjunct faculty, including faculty teaching college courses in conjunction with the high schools, participate in an orientation meeting. All faculty who teach concurrent enrollment courses are evaluated as per District Policy 4650.01

6b. The number of students in each course who did not meet the criteria defined in subsection (2)(a).

In accordance with R7-1-301(C) subsection (2)(b), "a community college may waive the class status requirement specified in subsection (2)(a), for up to 25 percent of the students enrolled by a college in courses provided under this rule if the community college has established written criteria for waiving the requirements for each course," and as per District Policy 6200.01. Eastern Arizona College qualifies for the waiver presented in subsection (2)(b).

- 6c. Total enrollments broken down by location, by high school grade level, by course, and by type of program (academic or occupational)

 See pages 13-21.
- 6d. Summary data on performance of students enrolled for college credit in courses offered in conjunction with high schools, including completion rates and grade distribution.

See page 12.

As per subsections 3, 4, and 5, compliance documentation is being forwarded.

- 3. All community college courses offered in high school settings have met college curriculum development and approval process pursuant to R7-1-703 and meet all other standards for courses pursuant to R7-1-702. College courses are at levels that exceed high school course content, and transferable to an Arizona public university or applicable to an established community college occupational degree or certificate program. Physical education courses have been excluded from community college courses offered in conjunction with high schools.
- 4. All community college courses offered in high school settings are subject to community college standards related to use of textbooks, syllabuses, course outlines, and student grading. An advisory committee including full-time faculty, associate faculty, high school administrators, and community college administrators convened in academic year 2001-02. An advisory committee report was submitted to the community college president. Findings of the advisory committee indicated no questions or concerns that course goals, standards, guidelines, were not being met.
- 5. Certified associate faculty members teach all community college courses offered in high school settings. All associate faculty have met and maintain valid community college teaching certification for the subject area being taught. Selection and evaluation of associate faculty instructional effectiveness was initiated. An advisory committee comprised of full-time faculty for the community college assist in the selection, orientation, evaluation, and professional development for associate faculty teaching college courses in conjunction with high schools.

6a. Documentation of compliance with the requirements identified in subsections (3), (4), and (5).

REQUIREMENT 3:

3. The courses shall have been evaluated and approved through the official college curriculum approval process pursuant to R7-1-703 (D), be at a higher level than taught by the high school, be transferable to an Arizona public university or applicable to an established community college occupational degree or certificate program, and meet all other standards for courses established in R7-1-702. Physical education courses are excluded from this program.

All dual enrollment courses, known as Concurrent Enrollment courses at Pima Community College, are approved courses which articulate to Arizona State University, Northern Arizona University, or the University of Arizona or which apply towards a Pima Community College associate of applied science degree (AAS) or certificate. No physical education courses are offered in the dual enrollment (Concurrent Enrollment) program.

REQUIREMENT 4:

4. College-approved textbooks, syllabuses, course outlines, and grading standards, applicable to the courses when taught at the community college shall apply to the courses, and all students in the courses, when offered under the provisions of this rule. The Chief Executive Officer of each community college shall establish an advisory committee of full-time faculty teaching in the disciplines offered at the college to assist in course selection and implementation in the high schools and to review and report at least annually to the Chief Executive Officer whether the course goals and standards are understood, the course guidelines are followed, and the same standards of expectation and assessment are applied to these courses as though they were being offered at the community college.

<u>Part 1:</u> College-approved textbooks, syllabuses, course outlines, and grading standards, applicable to the courses when taught at the community college shall apply to the courses, and all students in the courses, when offered under the provisions of this rule.

The course textbooks, syllabuses, course outlines, and grading standards for all dual enrollment course, known as Concurrent Enrollment courses at Pima Community College, have been approved by the campus chief academic officer responsible for the high school.

<u>Part 2:</u> The Chief Executive Officer of each community college shall establish an advisory committee of full-time faculty teaching in the disciplines offered at the college to assist in course selection and implementation in the high schools and to review and report at least annually to the Chief Executive Officer whether the course goals and standards are understood, the course guidelines are followed, and the same standards of expectation and assessment are applied to these courses as though they were being offered at the community college.

Pima Community College formed the Concurrent Enrollment Ad Hoc Committee in June 2001. The committee addressed the regulations, procedures, and standards of dual enrollment, known as Concurrent Enrollment courses at Pima Community College. The committee is composed of faculty, staff, and administrators and it meets monthly. The co-chairs are the Dean of Student Development of the Northwest Campus and the Director of Curriculum and Articulation Services. The committee made its annual report with three proposals in June 2002. The three proposals have been approved by the Joint Deans (Deans of Instruction and Deans of Student Development) and the Presidents Council. The Chancellor's Cabinet is reviewing the proposals.

REQUIREMENT 5:

5. Each faculty member shall have a valid community college teaching certificate in the field being taught and shall have been selected and evaluated by the college using the same procedure and criteria that are used at the community college. The Chief Executive Officer of each community college shall establish an advisory committee of full-time faculty teaching in the disciplines offered at the college to assist in the selection, orientation, ongoing professional development, and evaluation of faculty teaching college courses in conjunction with the high schools.

- 1987年 - 1987年 - **文製**造 - 1987年 - 1985年 - 2083**章** - 1885年 - 1885年 - 1987年 - 1987年 - 1987年

<u>Part 1</u>: Each faculty member shall have a valid community college teaching certificate in the **field** being taught and shall have been selected and evaluated by the college using the same procedure and criteria that are used at the community college.

All dual enrollment faculty have been hired through the normal adjunct faculty processes on each campus. Each dean of instruction, working with his/her respective high schools, is the hiring authority.

<u>Part 2:</u> The Chief Executive Officer of each community college shall establish an advisory committee of full-time faculty teaching in the disciplines offered at the college to assist in the selection, orientation, ongoing professional development, and evaluation of faculty teaching college courses in conjunction with the high schools.

The dean of instruction follows the guidelines established by the Concurrent Enrollment Ad Hoc Committee. Pima Community College formed the Concurrent Enrollment Ad Hoc Committee in June 2001. The committee addressed the regulations, procedures, and standards of dual enrollment, known as Concurrent Enrollment courses at Pima Community College. The committee is composed of faculty, staff, and administrators and it meets monthly. The co-chairs are the Dean of Student Development of the Northwest Campus and the Director of Curriculum and Articulation Services.

6b. The number of students in each course who did not meet the criteria defined in subsection (2)(a).

Curriculum, Materials, and instruction

- All dual enrollment courses have been evaluated and approved through the official college curriculum process.
- All courses are taught at a higher level than taught by the high school, and are transferable to an Arizona public university.
- All dual enrollment courses used college-approved textbooks, syllabuses, course outlines, and grading standards.
- The college's curriculum committee is made up of full-time faculty that teach in the disciplines offered as dual enrollment, and assist in course selection.
- All dual enrollment instructors hold a valid community college teaching certificate in the field being taught.
- The college's curriculum committee made up of full-time faculty in the disciplines offered as dual enrollment, assist in the selection, ongoing professional development, and evaluation of instructors teaching dual enrollment courses.
