Universal Articulation Description

ASU is a comprehensive public research university, measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves.

Universal Articulation at Arizona State University gives students attending partnering community colleges access to ASU’s transfer tools, in order to help create a seamless transition to ASU and enable students to successfully complete their bachelor’s degree.

The Universal Articulation tools assist in determining how a student's previously earned college credits will transfer into ASU majors. Students, along with the staff who support them, will have access to the Transfer Guide, ASU’s transfer planning tool. This guide allows students to build MyPath2ASU™ which maps a transfer pathway to their desired ASU major from any domestic institution. By signing an agreement, students will track their progress and earn guaranteed admission to ASU and into a pathway major if all requirements are satisfied.¹² Some majors have additional requirements.
