TEL (602) 255-4037 FAX (602) 279-3464

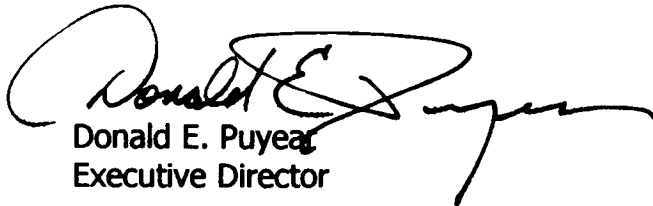

October 27, 2000

Mr. Patrick J. Carlin
Chairman
State Board of Directors for Community Colleges of Arizona
3225 North Central Avenue, Suite 1220
Phoenix, Arizona 85012

Dear Chairman Carlin:

It is my pleasure to present you with the *Report on Community College Classes Offered in Conjunction with High Schools, FY 1999-2000* as required by R7-1-709.

Very truly yours,

A handwritten signature in black ink, appearing to read "Donald E. Puyeat".

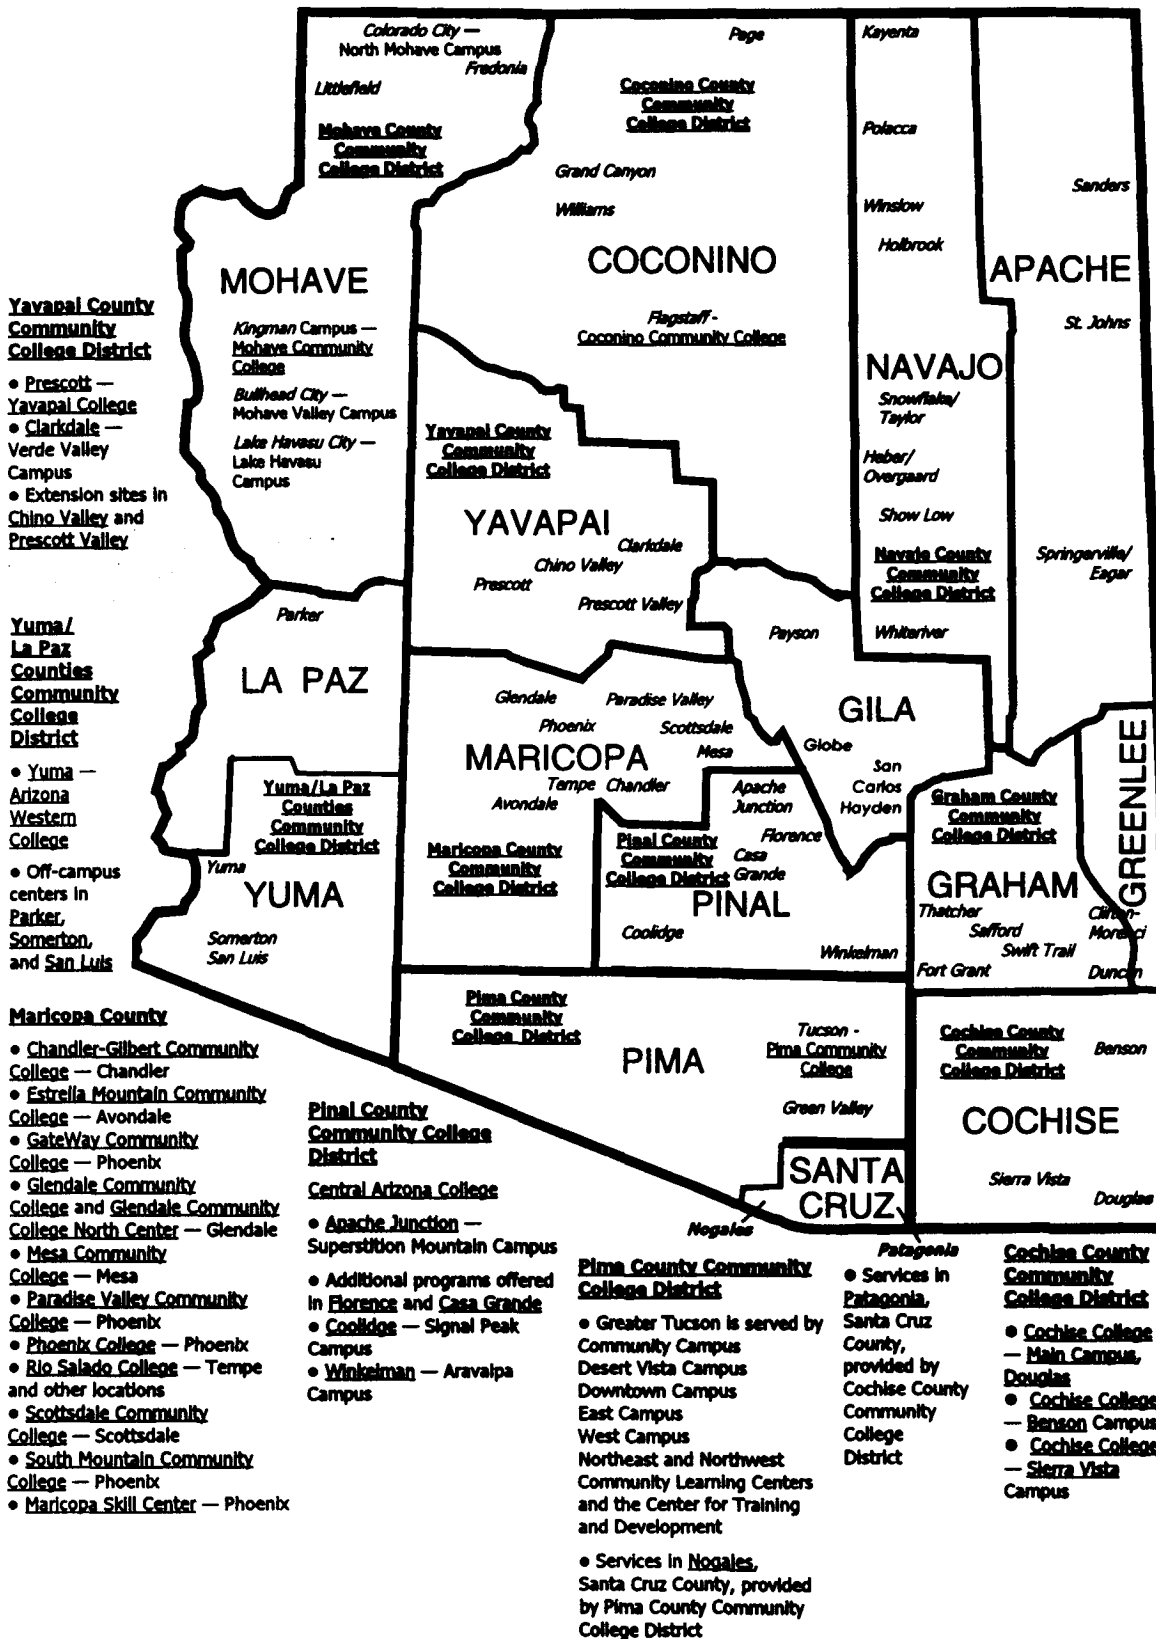

Donald E. Puyeat
Executive Director

R7-1-709. Community College Classes Offered in Conjunction with High Schools

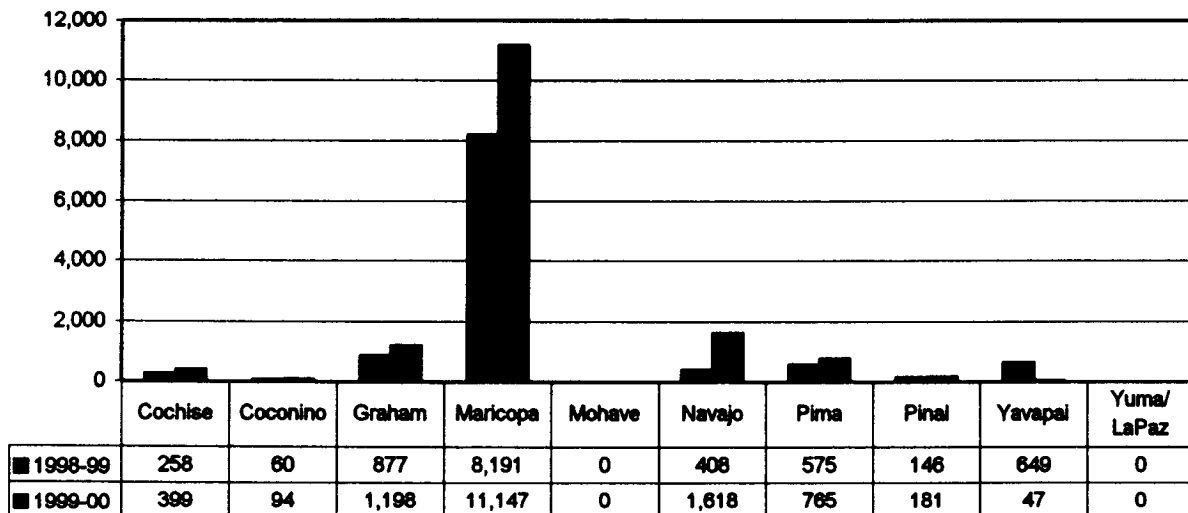

With the approval of the District Governing Board, courses may be offered by community colleges in conjunction with high schools for the purpose of offering community college instruction to high school students under the following circumstances:

1. Students shall have been admitted to the community college under the provisions of R7-1-301 — Student Admissions and shall satisfy the prerequisites for the course as published in the college catalog.
2. Courses may be offered at the high school campus provided the courses have been evaluated and approved through the official college curriculum approval process.
3. Courses shall use college-approved textbooks, syllabuses, course outlines, and grading standards, all of which are applicable to the courses when taught at the community college campus.
4. Each faculty member shall have a valid community college teaching certificate in the field being taught and shall have been selected and evaluated by the college using the same procedure and criteria that are used at the community college campus.
5. Each college district shall annually, by September 1, provide a report to the State Board of community college courses offered in conjunction with high schools during the previous academic year. This report shall list the locations at which the courses were offered, the discipline areas of the courses, and the aggregate student enrollment.

Cochise College Course Descriptions – Top Ten Courses

CHM 151 General Chemistry I

4 credits

Introduction to the general principles of chemistry with emphasis on quantitative relationships including properties of matter, chemical bonding and structure, nomenclature, chemical equations, stoichiometry, thermochemistry, and states of matter. Prerequisite: MAT 122 or equivalent; also high school chemistry or CHM 100 with a grade of "C" or better. 3 lecture; 3 lab.

CHM 152 General Chemistry II

4 credits

Introduction to the general principles of chemistry with emphasis on quantitative relationships including acids and bases, equilibria, oxidation-reduction, kinetics, nuclear chemistry, electrochemistry, and aspects of organic and biochemistry. Prerequisite: CHM 151. 3 lecture; 3 lab.

HIS 110 History of the United States 1607 – 1877 3 credits

A study of development of American characteristics and nationality from colonial beginnings through the period of Reconstruction, emphasizing the factors and forces which produced the Revolution, the Constitution, westward expansion, sectionalism and the Civil War. 3 lecture.

HIS 111 History of the United States Since 1877 3 credits

A study of the social, economic, and political forces that moved the United States through changing times from the post-Reconstruction era to the present, focusing on both domestic and foreign affairs in the country's last century of development. Prerequisite: None. 3 lecture.

MAT 151 College Algebra

4 credits

A logical development of the real number system, field axioms as applied to algebra, sets and set notation, inequalities and absolute value, polynomial functions and their graphs, determinants and matrices, inverse functions, logarithmic and exponential functions, complex numbers, sequences, binomial theorem, and mathematical induction. Prerequisite: Two years of high school algebra, or MAT 122 with a grade of "C" or better. 4 lecture.

MAT 182 Plane Trigonometry

3 credits

An analytical approach to trigonometry based upon the unit circle concept; trigonometric functions, identities, conditional equations, radian measure graphs, logarithms, solution of right and oblique triangles, inverse trigonometric functions and trigonometric form of complex numbers. Prerequisite: MAT 151 or approval of instructor. 3 lecture.

MAT 187 Precalculus

5 credits

Topics from college-level algebra and trigonometry essential to the study of calculus and analytic geometry. Includes algebraic, exponential, logarithmic, trigonometric, and inverse trigonometric functions, complex numbers, linear and nonlinear systems of equations and inequalities, and sequences and series. 5 hour lecture.

MAT 220 Calculus I

5 credits

An integrated study in which analytic geometry is used to develop, understand, and apply calculus concepts. Includes absolute value and inequality, relations and functions, graphs, limits and continuity, definition and application of the derivative, antiderivative and definite integral. Prerequisite: Four years of high school mathematics or MAT 187 or MAT 151 and MAT 182 or permission of instructor. 5 lecture.

POS 110 American National Government

3 credits

A study of the political system of the United States. Emphasis on constitutional development, the political culture, voting, political parties, campaigns and elections, interest groups, public opinion, and the three branches of the national government. Designed to increase the student's awareness and understanding of the political arena. This course fulfills the Federal Constitution requirement for the Arizona Teaching Certificate. Prerequisite: None. 3 lecture.

POS 220 Federal and Arizona Constitution

3 credits

A study of the governments of the United States and Arizona through the interpretation of the constitution of each political entity. Approved for teacher certification. Teachers needing only Arizona constitution should enroll in POS 221. 3 hour lecture.

Coconino Community College Course Descriptions

ENG 101 College Composition I 3 credits
Extensive practice in essay writing with emphasis on critical thinking, analytical reading, and observation, and the process of writing. Prerequisite: Placement, ENG 100 or ENG 100X. Three lecture.

ENG 102 College Composition II 3 credits
Extensive practice in critical thinking, reading, and writing with an emphasis on composing analytical essays on literary topics and a documented essay. Prerequisite: ENG 101. Three lecture.

HUM 241 Humanities I 3 credits
Cultural development of the Western World from the ancient Greeks to the Renaissance as reflected in the literature, visual arts, architecture, and performing arts of the various periods. Pre or Co-requisite: ENG 102. General Education: Arts and Humanities. Special Requirement: Intensive Writing/Critical Inquiry. Three lecture.

MAT 220 Calculus & Analytical Geometry I 5 credits
Limits, continuity, differential, and integral operations on algebraic and trigonometric functions and applications. Prerequisite: MAT 187 or MAT 151 and MAT 184, or placement. Five lecture.

PSY 101 Introduction to Psychology 3 credits
Scientific method in psychology, a survey of the different fields in psychology, heredity and environment, intelligence, emotions, motivation, the nervous system, and the learning process. General Education: social and Behavioral Sciences. Three lecture.

SPA 101 Beginning Spanish I 4 credits
Basic grammar, vocabulary, and culture. Practice in speaking, reading, and writing Spanish. General Education: Options. Four lecture.

SPA 102 Beginning Spanish II 4 credits
Further emphasis on basic grammar, vocabulary, and culture. Practice in speaking, reading, and writing Spanish. Prerequisite: SPA 101 or placement. General Education: Options. Four lecture.

Eastern Arizona College Course Descriptions – Top Ten Courses

APA 101 Apache Language I

4 credits

Emphasizes speaking, writing, listening comprehension, and culture through a variety of approaches.

ART 101 Fundamentals of Design

2 to 3 credits

Covers the elements of line, value, shape, texture, and color used according to the principles of design in two-dimensional composition.

ART 102 Color and Design

2 to 3 credits

Principles of color theory as related to the visual arts.

BIO 100 Biology Concepts

4 credits

An integrated course dealing with both plants and animals, related to our environment from molecule to biosphere. A liberal studies course for non-science majors with an emphasis on contemporary issues.

CMP 101 Introduction to Computers 3 credits

A first course in computers designed to provide beginning students with an understanding of the computer revolution in society, with hands-on experience in a microcomputer laboratory. Wordprocessing, spreadsheets, database, data communications and the internet, presentation, and desktop publishing.

ENG 101 Written Communications 1 3 credits

Emphasizes clear and effective writing and critical reading.

ENG 102 Written Communications II 3 credits

Continues development of skills and concepts taught in ENG 101. Emphasizes research and critical reading and writing.

HPE 102 Beginning Physical Activities II 1 credit

Sections are offered in a variety of physical activities, including individual, dual, and team sports. Continuation of HPE 101

MAT 154 College Algebra 3 credits

A review of polynomials, exponents, and radicals; solutions to equations and inequalities in one and two variables. Topics covered include exponential, logarithmic, and quadratic functions; roots of polynomials; graphs of various functions and conic sections; solutions of systems of linear equations.

OFT 117 Electronic Keyboarding 3 credits

This course introduces techniques of computer keyboarding with emphasis on touch control, speed, and accuracy. Using a word processing program, the course also introduces the formats of reports, letters, memos, tables, and employment documents.

Top Ten Courses Most Requested by High Schools**

- ENG 101 First-Year Composition 3 credits**
Standard English writing skills. Emphasis on expository composition. Prerequisites: Appropriate English placement test score; or "C" or better in ENG 071.
- ENG 102 First-Year Composition 3 credits**
Continued development of Standard English writing skills. Introduction to research, note taking, organization and documentation in the preparation and writing of a research paper. Prerequisites: ENG 101 with a grade of "C" or better.
- HCC 101 Health Care Today 0.5 credit**
Overview of current health care professions, including career and labor market information. Health care delivery system, third party payers, facility ownership. Health organization structure, patient rights and quality of care. Prerequisites: None.
- HCC 103, 105, 107, 109, 140, 151, 153 Health Core Curriculum**
- | | | |
|---------|--|------------|
| HCC 103 | Workplace Behavior in Health Care | 0.5 credit |
| HCC 105 | Personal Wellness and Safety | 0.5 credit |
| HCC 107 | Communication & Team Work in the Health Care Organizations | 1 credit |
| HCC 109 | CPR for the Health Care Provider | 0.5 credit |
| HCC 140 | Medical Terminology for Health Care Workers | 2 credits |
| HCC 151 | Legal and Ethical Issues in Health Care | 0.5 credit |
| HCC 153 | Decision Making in the Health Care Setting | 0.5 credit |
- MAT 187 Calculus 5 credits**
A precalculus course combining topics from college algebra and trigonometry. Preparation for analytic geometry and calculus. May receive credit for only one of the following: MAT 150, MAT 151, MAT 152, or MAT 187. Prerequisites: Grade of "B" or better in MAT 120 or MAT 122, or equivalent, or satisfactory score on a placement exam. Strongly recommended that students have some knowledge of trigonometry.
- MAT 221 Calculus with Analytic Geometry I 4 credits**
Real numbers, limits, continuity, differential and integral calculus of functions of one variable. May receive credit for only one of the following: MAT 220 or MAT 221. Prerequisites: Grade of "C" or better in (MAT 150, MAT 151 or MAT 152) and MAT 182, MAT 187 or equivalent, or satisfactory score on district placement exam.
- MAT 231 Calculus with Analytic Geometry II 4 credits**
Methods of integration, applications of calculus, elements of analytic geometry, improper integrals, sequences and series. May receive credit for only one of the following: MAT 230 or MAT 231. Prerequisites: Grade of "C" or better in MAT 220 or MAT 221 or equivalent.
- SPA 102 Elementary Spanish II 4 credits**
Continued study of grammar and vocabulary of the Spanish language and study of the Spanish-speaking cultures. Emphasis on speaking, reading and writing skills. Prerequisites: SPA 101 or departmental approval.
- SPA 201 Intermediate Spanish I 4 credits**
Review of essential grammar of the Spanish language and study of the Spanish-speaking cultures and continued practice and development of reading, writing, and speaking skills. Emphasis on fluency and accuracy in spoken Spanish. Prerequisites: SPA 102, two years of high school Spanish or departmental approval.
- SPA 202 Intermediate Spanish II 4 credits**
Review of grammar, continued development of Spanish language skills with continued study of the Spanish-speaking culture. Prerequisites: SPA 201 or departmental approval.

Northland Pioneer College Course Descriptions – Top Ten Courses

CSC 102 Corel Suite Computer Applications 3 credits

This course is designed to provide an understanding in the use of electronic word processors, spreadsheets, data bases, and presentation graphics using Corel Suite integrated software. Students will use these various applications to solve problems in the home, office, and business environments. Two lecture; two lab.

CSC 103 Introduction to Windows 1 credit

In this introductory course students will learn the Windows operating environment on IBM compatible computers. Hardware, terminology, and working with icons, pull-down menus, dialog boxes and file management will be included. This course is not for CIS majors. One lecture; one lab.

HOS 121 Foods I 3 credits

This course will provide the student with an introduction to food service. The student will learn basic food service principles as they relate to the restaurant industry: nutritional concepts, kitchen tools and equipment, food preparation, herbs and spices, stock and sauces, cookie varieties, and bread production. Three lecture.

HPE 110 Beginning Weight Training 1 credit

Designed to supplement an aerobic cardiovascular training program. Includes basic anatomy and exercise physiology, muscle groups and the appropriate exercises for each. Will also include weight training principles, systems and safety. Two lab.

HPE 111 Advanced Weight Training 1 credit

Designed to supplement an aerobic cardiovascular training program. Includes basic anatomy and exercise physiology, muscle groups, and the appropriate exercises for each. Also includes advanced use of the machines and free-weights. Body building techniques will also be presented if requested. Two lab.

OED 100 Keyboarding 1 credit

Basic keyboarding and keypad mastery using correct touch principles. Basic formatting techniques are introduced. .5 lecture; one lab.

OED 110 Basic Keyboarding & Format 3 credits

Students learn touch methods of alpha-numeric symbol keyboard, accuracy/speed and document preparation.

MAT 152 College Algebra 3 credits

This course presents algebraic concepts at the college level. The approach is intuitive and interactive, with an emphasis on real-life applications and the use of current technologies, particularly graphing calculators. Coursework includes a review of basic algebra, then progresses to techniques for solving equations and inequalities both algebraically and graphically. Also covers polynomial, rational, radical, exponential and logarithmic functions and their graphs, as well as sequences, series, and combinatorics. Three lecture.

MAT 189 Precalculus Algebra/Trigonometry 3 credits

This course represents the concepts in algebra and trigonometry necessary to prepare for calculus. The approach is intuitive and interactive, with an emphasis on real-life applications and the use of current technologies particularly graphing calculators. Coursework includes trigonometric functions, analytic trigonometry, vectors and applications, systems of equations and inequalities, matrices and determinants, and analytic geometry. Three lecture.

PHO 100 Beginning Photography 3 credits

Principles and process of photography includes techniques of black and white photography and processing. Two lecture; two lab.

Pima Community College Course Descriptions – Top Ten Courses

BIO 181 General Biology

4 credits

Prerequisite(s): Equivalent of one semester college chemistry, assessed placement at MAT 122 and REA 091. Principles of structure and function of living things at the molecular, cellular and organismic levels of organization. Includes scientific process; chemistry of the cell; cell structure, function, and reproduction; inheritance; molecular biology and biotechnology. (3 lec., 3 lab)

CHM 140 Fundamental Organic and Biochemistry 5 credits

Prerequisite(s): CHM 130, high school chemistry within the last three years or consent of instructor. Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the classification, structure and general chemical behavior of organic and biochemical systems. Adapted to the needs of students in nursing and other allied health programs.

HUM 110 Humanities I

4 credits

Introduction to major cultures from Sumer through the Reformation. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music, and literature. Also includes readings from the "Epic of Gilgamesh", Homer, Sophocles, Aristophanes, Plato, Aristotle, Virgil's Aeneid, the Hebrew and the Christian Scriptures, St. Augustine, heroic and religious works of the Middle Ages, Dante, Chaucer, Machiavelli, and Shakespeare. (4 lec.)

HUM 111 Humanities II

4 credits

Introduction to the culture of the modern western world from the Counter Reformation-Baroque to the present. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music and literature. Also includes readings from the Baroque philosophers, Cervantes, Voltaire, Rousseau, Goethe, Romantic, pre-modern and contemporary literature, poetry, and drama. (4 lec.)

MAT 172 Finite Mathematics

3 credits

Prerequisite: MAT 151. Mathematics for students majoring in business. Includes set theory, partitions, permutations, combinations, probability, Bernoulli trials, Markov chains and the simplex method of linear programming. (3 lec.)

MAT 220 Calculus I

5 credits

Prerequisite(s): MAT 182 or 187 or satisfactory score on the mathematics assessment test. Introduction to analytical geometry and calculus. Includes limits, continuity, differentiation and integration of algebraic and basic trigonometric functions, and applications of differentiation and integration.

PHY 121 Introductory Physics I

5 credits

Prerequisite: High School algebra. Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes mechanics and heat. (5 lec., 2 lab)

SPA 110 Elementary Spanish I

4 credits

Skill development to provide proficiency in basic communication (listening, speaking, reading and writing), emphasizing an examination of Spanish cultural traditions.

WRI 101 Writing I

3 credits

Prerequisite(s): WRI 100 or satisfactory score on writing assessment test. Principles and practices of writing. Includes writing college-level essays, review of basic writing skills, and written works. Also includes descriptive, expository and persuasive writing.

WRI 102 Writing II

3 credits

Prerequisite(s): WRI 101. Continuation of WRI 101. Includes writing analytical or critical papers, analysis and discussion of various types of literature, developing research skills, and written works. Also includes writing a research paper.

Central Arizona College Course Descriptions – Top Ten Courses

CHM 100 Fundamentals of Chemistry 4 credits

An introductory course which covers the basic aspects of such topics as matter, energy, measurement, atoms, molecules, ions, chemical bonding, chemical arithmetic, and nuclear reactions.

COM 198 American Sign Language III 3 credits

This course is designed to introduce students to manual communication, finger spelling and sign language and to the problems and personalities of the deaf.

ENG 101 English Composition III**3 credits**

Development of students' abilities to read and write academic, college-level essays with an emphasis on creating and developing ideas, and using a process of writing, revising, and editing to create organized coherent, well-developed essays reflecting the conventions of English grammar, mechanics, and usage.

ENG 102 English Composition IV**3 credits**

Further emphasis on critical reading and essay writing, with each student writing short essays as well as an extended research paper, engaging students in the reading, thinking, and writing processes central to academic research: paraphrase, summary critical analysis, and synthesis.

HIS 103 History of Western Civilization I**3 credits**

A survey of Western world development from its beginnings to the mid-17th century, centered on the cultural, scientific, religious, and political contributions of the great western civilizations.

HIS 104 History of Western Civilization II**3 credits**

A study of society from mid-17th century to modern day, stressing its intellectual, military, and political conflicts.

HOC 110B Medical Terminology B**3 credits**

Continuation of HOC 110A, providing the student with continued exposure to the principles of medical terminology and building a working vocabulary of medical terms, including common terms in anatomy, physiology, and pharmacology.

MAT 150 College Algebra with Review**5 credits**

An accelerated study of algebra including topics such as equations, relations, functions, transformations, linear and quadratic functions and inequalities, systems of linear equations and inequalities, exponential and logarithmic functions, polynomials and rational functions, and imaginary and complex.

PSY 101 Introduction to Psychology**3 credits**

Principles and theories of human behavior: history of psychology, scientific discipline applied to psychology, physiological psychology, sensation and perception, human development, drives, motives, emotions, personality, adjustment, abnormality, therapeutic models, theories of attribution and attraction, group consciousness, learning, memory, intelligence, and measurement and testing of intelligence.

SOC 100 Introduction to Sociology**3 credits**

The systematic study of human behavior as shaped by group life, and the social systems and structures created by human beings.
