### NPC schedules Truth in Taxation, Public Budget Hearing for May 16, 2023

HOLBROOK — The Navajo County Community College District Governing Board will conduct a Truth in Taxation and Public Budget Hearing for consideration of the proposed budget for the 2023–2024 fiscal year at the Tiponi Community Center, 2251 E. Navajo Blvd., Holbrook, Arizona, 86025, on Tuesday, May 16, 2023, at 10:00 a.m. (M.S.T.). The hearing may also be attended remotely using the link:

<u>https://npc.webex.com/npc/j.php?MTID=mc8404cdce46a73651d99563b25f86204</u> (password May23DGB – if needed), for both public viewing and comment. Additional access to the hearing is available by phone: dial-in +1-415-655-0001, meeting number (access code): 2621 428 9363.

At its April 18 meeting, the board adopted a **preliminary 2023-2024 budget.** The college stands ready to help students and employees. The proposed budget includes the following key items.

- Upgrade the Enterprise Resource Planning (ERP) software used to manage college operations, including class offerings, registration, financial aid, student payments, and all aspects of accounting.
- Facilities expansion will continue at the Show Low campus by renovating an existing building to offer one-stopshop services for students.
- Students in both Navajo and Apache County will receive the "In District" rate of \$70 per credit hour.
- Employees will receive a salary increase to cover increases in the cost of living.

Under the state's Truth in Taxation (TNT) statutes, the college district is requesting an increase in primary property taxes of \$587,915 or 3.7 percent. According to the TNT formula, the primary property tax for an owner-occupied residence with an assessed valuation of \$100,000 would increase from \$169.18 to \$175.36. NPC does not have a secondary tax rate to pay for any improvement bonds or budget overrides.

The assessed valuation of utilities, power plants, transmission lines, and mines is set by the state's Department of Revenue. The Navajo County Assessor's Office is responsible for setting the assessed valuations for local real property and buildings. These combined assessed valuations are used by various taxing jurisdictions as the basis for calculating the primary property tax levy.

After the public hearing, the governing board can decrease or accept the budget from the preliminary figures adopted on April 18. The budget data can be viewed or downloaded as a PDF from the college's website: <u>https://www.npc.edu/fy2024-preliminary-budget</u>. Answers to many frequently asked questions are also posted.

Interested citizens are encouraged to attend the Truth in Taxation and Public Budget Hearing and make comments prior to the formal adoption of the budget by the local governing board during a special meeting immediately following the public hearing.

Comments about the proposed primary tax rate or budget can be made during the meeting or submitted online at <u>www.npc.edu/public-comment-form</u>.

### Student Government Association (SGA)

District Governing Board Report on May 16, 2023

### Recruiting:

On April 17, 2023, our four SGA members met with President Hazelbaker and discussed strategies for growing SGA and increasing student engagement. Students shared that they would like to have a college wide kick off event in the Fall, and they will be putting together snack boxes this week to support students taking finals next week.

### Events: EAGLE FEST, April 22, 2023

### https://www.flickr.com/photos/npcedu/albums/72177720307848759

Eagle Fest was a happy success for all those who participated. The weather was perfect, with just a few stray wind gusts scattering the bubbles supplied by Behavioral Health across the grass. We estimate that we had more than 300 visitors and used up <u>all</u> of our tickets for food truck tacos from The House. There were many great demonstrations of college programs such as Surgical Technology and Computer Information Systems. Paramedicine brought the ambulance over and did CPR demonstrations, and the STEM van supported hands-on activities by Community and Corporate Learning. Cosmetology and the Talon Art Gallery were open, showcasing our students' handiwork. These were favorite destinations for our visitors. Construction provided an oversized Jenga set. The perfect mix of spring festival tunes was provided by the band Covered in Sun.

The NPC folklorico dancers, Aguilas de Oro (Golden Eagles), provided a touch of beauty and color with their premier performance since rebuilding after the pandemic. The group has been a part of NPC for 20 years and was established by Idalia Lewis. It is currently directed by Arthur Serna, who was an initial member and now works at NPC in Enrollment Management. The group is open to anyone and everyone as a non-credit class. They teach different dances from the states and regions in Mexico. They are definitely proud ambassadors for NPC and we were honored to have them at Eagle Fest. Early College, Advising, Recruitment, Financial Aid, College and Career Prep, Business, Small Business Development Center all joined in the fun. The event was coordinated by Recruitment and Student Government Association, but would not have been possible without the incredible support from Marketing who brought out radio station 95.7 for a live broadcast and was instrumental with all the flyers, posters, PR, pictures, giveaways and Ernie the Eagle, who was everywhere. Set up and break down were accomplished by Recovery Works students and the WMC front office staff, coordinated by campus manager Jessica Kitchens.

### NPC District Governing Board

#### Dear Board Chair Laughter and Representatives Lucero, Jouen, Leslie, and Robinson,

While I am taking annual leave this week, I am pleased to provide you with a brief on happenings with NPC Friends and Family since our last meeting.

#### Scholarships and Fund/Friend Raising:

Attached is a report on the Fall 2023 NPC Friends and Family scholarship cycle. I want to especially thank Board Chair Laughter and Board Member Robinson for taking part in the scholarship review process. This really is a tremendous help, and it is also a great way to learn about our students, and particularly about the challenges they face in getting a college education!

I am also pleased to announce that the Summit Healthcare Foundation has once again come through for us, providing ten new \$1,000.00 scholarships for students in the nursing program! The scholarships are available to both first and second-year students, and the deadline is Tuesday, June 13 at 12:00 noon, MST. I have sent the scholarship information and application instructions to Dean Zimmeran, who has forwarded it to the students and faculty, and I have already received some essays to review!

I have also opened the \$1,500.00 Taking Flight Scholarship in Memory of Dr. Eric B. Henderson, and the \$3,000.00 AndyVon Baccalaureate Bound Scholarship for students who are graduating from NPC on May 13 and going on to earn a bachelor's degree. Email went out to all students on May 8, and the deadline for applications is Thursday, June 22 at 12:00 noon MST.

#### **Community Outreach**

I continue to prioritize community outreach, both for its benefit to NPCFF and to the college. I have taught scholarship classes to high school seniors at Blue Ridge, Show Low, Snowflake, and Round Valley High Schools. I also made a presentation on NPC Friends and Family scholarships at the annual Winslow High School "Power Hour" – an event to acquaint WHS seniors with all the scholarships that are available to them.

In other news, Pedal the Petrified registration has now been opened up to anyone interested in riding. I reserve the first month of registration for those who have ridden with us in past events. We're now advertising the ride on social media, and we have about 150 registrants. I look forward to seeing you again at the June meeting, which will take place right after our annual NPC Friends and Family board retreat. Stay well. See you in June!

### May 2023 NPCFF Board/NPC DGB Report on Fall 2023 NPCFF Scholarships

Once again, the simplified process for submitting online applications for NPC Friends and Family (NPCFF) scholarships, launched for the Spring 2023 season, multiple scholarship information classes, the online availability of both written and video tutorials for developing and scholarship essay (this has been in use for the past four semesters), and a concerted push to market scholarship opportunities has resulted in NPCFF receiving another strong round of applications. We received applications from 49 unique students

- Of the 49 applications received, 40 were complete and qualified for assessment by scholarship review committees comprised of members of the NPCFF board, NPC faculty, staff, and administrators.
- All but one of the nine applications that were ineligible for review due to errors were submitted on the deadline date, within two hours of the deadline. The applicants were apprised of the need to submit future applications well in advance of the deadline date, so any errors can be corrected.

### Applicants by Program of Study

They represent the ethnic distribution of all students who took at least one credit-bearing course in SP 23, and not all students are eligible for scholarships. Also, due to some issues within the online application process, the race/ethnic data were not complete, resulting in a large percentage of students being reported as "unknown/prefer not to say".

### **Scoring Methodology**

Applicants are scored on a personal essay that is evaluated based on criteria including the applicant's sense of college and career goals and how well they are aligned, their resourcefulness with regard to college planning, their need for the scholarship, and their academic merit. Some were also required to submit letters of recommendation. Scholarship reviewers are provided with a scoring rubric to assist them in assessing each applicant according to the criteria. For this particular round of scholarships, there were three teams, each comprised of 7-9 individuals. Team 1 scored 16 applications; Teams 2 and 3 scored 12 each. To calculate each applicant's score, the high and low score for each applicant is discarded, and the remaining scores are averaged.

### **Application Scoring Patterns**

All applicants received at least one scholarship. Some applicants received two, based on the scores they received and their degree plan. For example, some scholarships are only available to Welding students; some are only for Early Childhood students.

The average score among the 40 awardees was 89.29%.

The highest score among the 40 awardees was 97.14%

The lowest score among the 40 awardees was 81.26%

The median score was 91.93%

Five of the top ten scorers, (50%) identified as Native American; 1 (10%) identified as Asian; 4 (40%) identified as White.

Of the top half of scorers, 5/19 (26.3%) identified as Native American; 2/19 (10.5%) identified as Hispanic; 1/19 (0.05%) identified as Black; 10/19 (52.6%) identified as White

Of the 40 qualified applicants, 16 (40.0%) consulted me on their scholarship essays; six of the top 10 scorers consulted me at least once on their scholarship essays. Eight of the top 10 are past NPCFF scholarship awardees; 23 of the 40 applicants (57.5%) are past NPCFF awardees.

### **Total Awards by Race**

After review, it was determined that 40 students will receive a total of \$46,600.00 in NPCFF scholarships for the Fall 2023 semester.

- \$18,000.00 (38.6%) of NPCFF scholarship dollars were awarded to students who identified as Native American
- \$5,000.00 (10.7%) of NPCFF scholarship dollars were awarded to students who identified as Hispanic
- \$2,500.00 (5.4%) of NPCFF scholarships dollars were awarded to the student who identified as Asian
- \$21,100.00 (45.5%) of NPCFF scholarship dollars were awarded to students who identified as White.

Additional AY 23-24 scholarships, totaling approximately \$14,500.00, are yet to be awarded. This will bring the total NPCFF scholarships awarded for Fall 2023, as of this writing, to \$61,100.00.

Regular Meeting Agenda Item 4.C May 16, 2023 Information Item

### **Higher Learning Commission Financial Ratios**

### Summary:

The Higher Learning Commission (HLC) uses specific financial ratios to track institutional health as part of an overall strategic financial analysis. The model adopted by the HLC uses the concept of a Composite Financial Index (CFI), which is intended to give a quick snapshot of overall financial health.

Well-managed institutions use their mission to drive success and use financial metrics to determine affordability. The ratios assist in the development of the answers to the following questions and other key questions of strategic financial importance.

- Are resources sufficient and flexible enough to support the mission?
- Are resources managed strategically to advance the mission, such as debt?
- Does asset performance and management support the strategic direction?
- Do operating results indicate the institution is living within available resources?

Data for **fiscal year 2021-22** along with historical and comparative information is presented with and without the change in accounting principle related to GASB Statements No. 68 and No. 75.

- GASB 68 Accounting and Financial Reporting for Pensions adopted in fiscal year 2014-15.
- GASB 75 Accounting and Financial Reporting for Postemployment Benefits Other than Pensions adopted in fiscal year and 2017-18 respectively. This is immaterial for NPC.

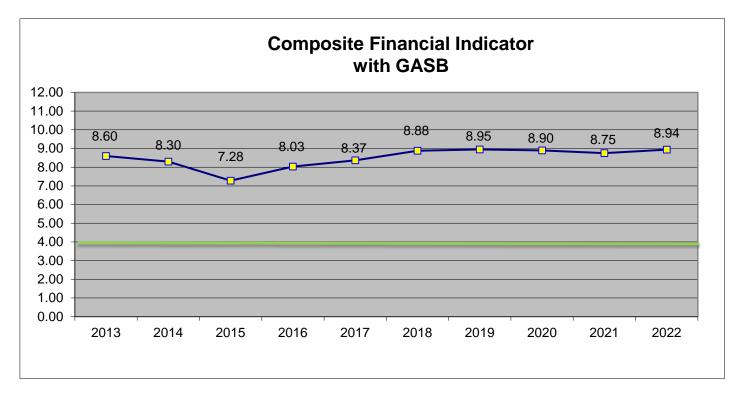

The CFI measures the overall financial health of the institution based on the sufficiency and flexibility of resources, the management of debt, the performance of assets, and the results of operations. A score of 3.0 is considered the threshold for financial health. NPC's score is well above the threshold and has been for years.

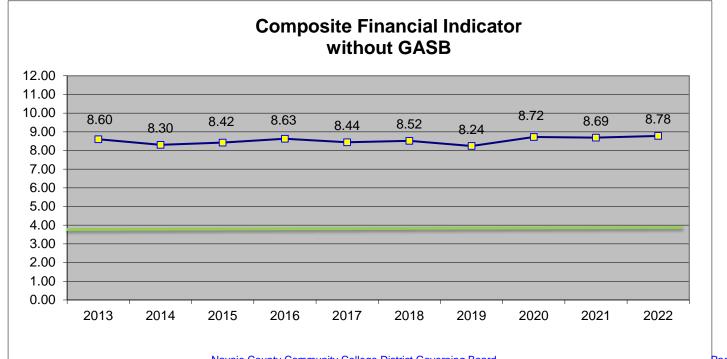

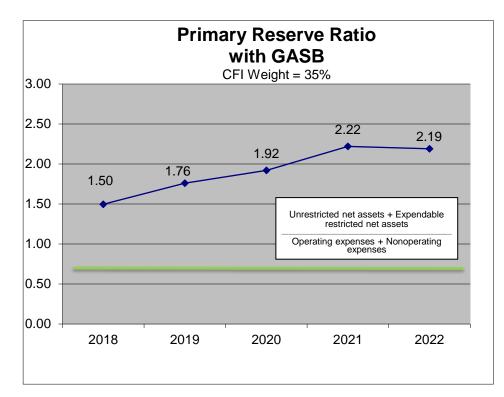

The financial ratios that make up the CFI include:

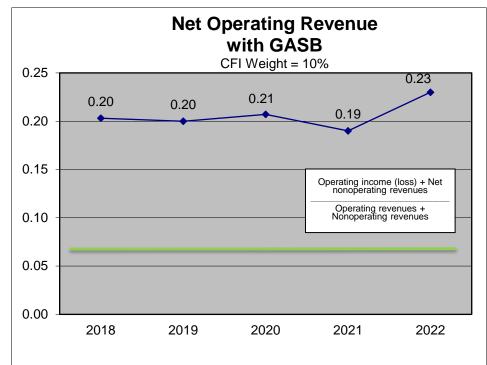

- **Primary Reserve Ratio** (*CFI weight = 35%*) measures financial strength by comparing expendable net assets to total expenses. The ratio represents the percent of a year the institution could meet financial obligations with assets readily available. A **ratio of .40 is considered the threshold for financial health**. NPC's score is well above the threshold.
- Net Operating Revenues Ratio (%) (*CFI weight = 10%*) measures whether the institutional operations resulted in a surplus or a deficit for the year. The ability of an institution to operate within available resources in basic day-to-day functions. The threshold for financial health is **4 percent**. NPC's score is well above the threshold.
- Return on Net Assets (%) (*CFI weight = 20%*) measures whether the institution's total assets (restricted and unrestricted) are increasing or decreasing. A ratio that is 3-4% above inflation is considered the threshold for financial health. A higher return on net assets means that the institution is using its assets and working capital efficiently and effectively. NPC's score is above the threshold.
- Viability Ratio (*CFI weight = 35%*) measures the ability of an institution to meets its entire debt obligation with expendable assets. A ratio of 1.25 is considered the threshold for financial health. NPC has **no long term debt or bonds**, so this ratio is not applicable.

**Others Present:** President Chato Hazelbaker; Recording Secretary to the Board Paul Hempsey; Vice President for Administrative Services (VPAS) Maderia Ellison; Justin White; David Huish.

#### Agenda Item 1: Call to Order and Pledge of Allegiance

Chair Laughter called the meeting to order at 5:32 p.m. and led the pledge of allegiance.

#### Agenda Item 2: Adoption of Agenda

Mr. Leslie made a motion to adopt the agenda as presented. Mr. Robinson seconded the motion. The motion carried upon a roll-call vote with Mr. Jouen, Mr. Robinson, Mr. Leslie, and Chair Laughter voting in favor. There were no votes against.

#### Agenda Item 3: Remodel at Snowflake Student Center

VPAS Ellison asked Director of Facilities and Vehicles, Justin White, to present the request to approve the costs associated with the remodel of the Silver Creek Campus Student Center which was damaged due to a frozen pipe break.

Mr. Robinson asked about additional changes to move an existing doorway to allow for better access to the new offices. Director White noted that this would be a good thought but that the doorway was currently within a load bearing wall and would take a bit of work and additional cost.

Chair Laughter asked what the size of the building was. Director of Construction, David Huish, responded that the building was 8000 square feet.

Mr. Leslie asked whether the Board Policy and College Procedures on procurement allowed the Board to move this recommendation along without the generally required sealed bid process. VPAS Ellison noted the broad exceptions available within the procurement procedure which makes the recommendation valid and legal. A contractor, hired by the insurance company to complete restoration after the flooding, was already on-site, familiar with the building and working for the college, and available to complete the renovations. This results in cost savings to the college and a completion date prior to the first day of classes for the Fall 2023 semester. VPAS Ellison offered to send the Procurement procedure to the Board members.

Mr. Jouen noted that this would be a tremendous savings for the college as the sealed bid process would not only delay the project by months but that the college would then have to pay for a second mobilization of equipment when the award is made and likely have to undo some of the work completed during the insurance portion of the restoration work.

Chair Laughter noted that this was the second time a frozen pipe break had caused flooding in the Student Center and asked for details on how this would be mitigated in the future. Director White responded with information on the additional insulation installed within the building.

Mr. Jouen made a motion to approve the award of contract to Restore Pro for the remodel of the Student Center at the Snowflake Campus for an amount not to exceed \$155,000.00 as presented. Mr. Robinson seconded. The motion carried upon a roll-call vote with Mr. Jouen, Mr. Robinson, Mr. Leslie and Chair Laughter voting in favor. There were no votes against.

Regular Meeting Agenda Item 6.B.1 May 16, 2023 Action Item

# Request to Accept the Single Audit Report for the Fiscal Year Ended June 30, 2022

#### **Recommendation:**

Staff recommends accepting the Single Audit report for the fiscal year ended June 30, 2022. The audit opinion for the report was "unmodified," which is positive.

#### Summary:

NPC's audits are conducted by the Arizona Auditor General (AG). The Auditor General sends staff to present the audit during this meeting and will:

- introduce its audit staff;
- provide an overview of their responsibilities and the audit process;
- review NPC's audit process and results; and
- review the Governance Letter associated with the audit.

NPC issues two separate audit reports - the Annual Comprehensive Financial Report (ACFR) and the Single Audit. The ACFR was reviewed with the District Governing Board in January 2023 and the Single Audit report will be reviewed this month. The Single Audit was distributed electronically to the District Governing Board on March 29, 2023 by the AG and is also available on their website at <u>https://www.azauditor.gov</u>.

#### **NPC's Audit Reports:**

1. ACFR

- a. focuses on the financial audit and financial condition of the college
- b. includes the financial statements of Northeast Arizona Training Center (NATC) and the NPC Friends and Family
- c. two findings were identified related to information technology resources and risk management, for which a corrective action plan has been deployed to address over the next year

2. Single Audit Report

- a. focuses on compliance with federal financial awards
- b. one finding was identified related to disbursement of HEERF funds

The ACFR Audit findings continue from last year. A multitude of procedures have been developed and adopted to address, correct and eliminate these concerns going forward.

# Northland Pioneer College

With the ever-transcending changes in technology, information technology resources have received increased attention throughout the state and the nation.

The Single Audit finding identified a gap in our process of refunding HEERF funds to students. Three instances were found where monies were applied to student's accounts instead of disbursed to them. These monies should have been distributed to students unless they requested in writing to have the funds applied to their account.

The 2022 audit was completed ahead of the submission deadline established by the US Department of Education of March 31, 2023 and has been submitted to the US Department of Education and other external partners. The ACFR and the Single Audit Report have also been distributed to the NPC Audit Committee.

Numerous individuals from various departments and divisions worked on the audit and the related reports and all deserve a heartfelt thanks: Business Office, Technology Advancement and Support, Financial Aid, Human Resources, Records & Registration, Marketing, the Instructional Division and the President.

College staff also acknowledges the contribution of the Office of the Auditor General. They play an important role in the audit and continue to provide timely and professional work. We appreciate the working relationship we have with all members of the Auditor General's staff.

Annual Comprehensive Financial Report

Reports on Internal Control and on Compliance

#### Independent auditors' report on compliance for each major federal program; report on internal control over compliance; and report on schedule of expenditures of federal awards required by the Uniform Guidance

Members of the Arizona State Legislature

The Governing Board of Navajo County Community College District

#### Report on compliance for each major federal program

#### Opinion on each major federal program

We have audited Navajo County Community College District's compliance with the types of compliance requirements identified as subject to audit in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

#### Basis for opinion on each major federal program

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the U.S. Comptroller General, and the audit requirement of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the audit of compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

#### Management's responsibilities for compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

#### Auditors' responsibilities for the audit of compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, we express no such opinion.

We are required to communicate with those charged with governance regarding, among other matters, the audit's planned scope and timing and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Other matters

The results of our auditing procedures disclosed an instance of noncompliance that is required to be reported in accordance with the Uniform Guidance and that is described in the accompanying schedule of findings and questioned costs as item 2022-101. Our opinion on each major federal program is not modified with respect to this matter.

#### Report on internal control over compliance

Our consideration of internal control over compliance was for the limited purpose described in the auditors' responsibilities for the audit of compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance, and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a

federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2022-101 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### District response to findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the noncompliance and internal control over compliance findings that are presented in its corrective action plan at the end of this report. The District is responsible for preparing a corrective action plan to address each finding. The District's responses and corrective action plan were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

#### Report on schedule of expenditures of federal awards required by the Uniform Guidance

We have audited the financial statements of the District's business-type activities and aggregate discretely presented component units as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 28, 2022, that contained unmodified opinions on those financial statements. Our report also included a reference to our reliance on other auditors. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of the District's management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**Condition**—Contrary to federal guidance, the District used emergency financial assistance monies to satisfy the student's outstanding account balance without obtaining the student's prior consent to do so for 3 of 30 emergency financial assistance transactions we tested. Specifically, the District misapplied \$500 of program monies, for a total of \$1,500, to discharge each of these student's outstanding account balance with the District rather than directly disbursing these monies to the students. However, we noted no questioned costs as a result of this noncompliance since the students were eligible to receive financial assistance monies.

**Effect**—By the District not obtaining a student's prior consent to discharge their outstanding account balance rather than disbursing the monies directly to the student, the program's objective to provide students with emergency financial assistance that may be used at the student's discretion to help defray costs for food, housing, health care, or childcare—in addition to tuition costs—may not be met. Further, the student could face undue financial hardship.

**Cause**—The District did not have a documented process in place to ensure that it obtained a student's prior consent for applying emergency financial assistance to the student's outstanding account balance.

**Criteria**—Federal guidance requires the District to obtain a student's prior written or electronic consent prior to applying emergency financial assistance to discharge the student's outstanding account balance with the District.<sup>1</sup> In addition, the District must establish and maintain effective internal control over federal awards that provides reasonable assurance that it administers federal programs in compliance with all applicable laws, regulations, and award terms (2 Code of Federal Regulations [CFR] §200.303).

**Recommendations**—The District should:

- 1. Develop and implement written policies and procedures to ensure the District obtains each student's written or electronic consent prior to applying any emergency financial assistance to the student's outstanding account balance.
- 2. For those instances in which the District misapplied emergency financial assistance to students' outstanding account balances, determine if the students agree with the discharge of the outstanding account balances or want direct payment of those monies and make any necessary adjustments.

## Navajo County Community College District Annual financial statement and compliance audits

#### Auditor findings and recommendations

Summarized below are our findings and recommendations included in the District's Report on Internal Control and on Compliance and Single Audit Report where there is further information and the District's responses. The District needs to:

- Implement policies and procedures to manage, assess, and respond to risks related to its information technology (IT) systems and needs to continue to develop certain processes to effectively protect IT systems and financial and other data, including sensitive student data. We found that processes for managing and documenting risks and restricting access over IT systems and data were not sufficient, which may put the District's operations and IT systems and data at unintended and unnecessary risk of potential harm. We reported similar findings in the prior year.
- Develop and implement written policies and procedures to ensure the District obtains each student's consent prior to applying any emergency financial assistance to the student's outstanding account balance for the COVID-19 Education Stabilization Fund program. We found that for 3 of 30 student awards tested, the District incorrectly applied the grant award to a students account without obtaining student consent.
