### **Chemistry Program Map – 2025-2026**

*Blocks are suggested for full-time students, but may be adjusted based on course scheduling, student employment, or individual needs.*

NPC does not offer a degree specific to chemistry. Students interested in chemistry and related degrees should pursue the Arizona General Education Curriculum (AGEC) requirements for an Associate of Science degree, and plan to transfer to another institution to complete a bachelor's degree in biology.

Students eligible to take more advanced math classes should aim to get through MAT 231 (Calculus II) by the end of the third semester. MAT 160 also is suggested.

**Notes:** This Academic Plan is a suggestion of how this program can be completed as a full-time student and may need to be adjusted based on the semester you start or your personal circumstances. Students should consult a faculty or academic advisor as they design their individual completion path.

General education options are located in section IV, Programs, of the NPC college catalog. To be sure your general education course applies to your degree, speak with your academic advisor.
