Geology interest 2-year plan – 2023-2024 Catalog

Blocks are suggested for full-time students, but may be adjusted based on course scheduling, student employment, or individual needs.

NPC does not offer a degree specific to geology. Students interested in geology and related degrees should pursue the Arizona General Education Curriculum (AGEC) requirements for an Associate of Science degree, and plan to transfer to another institution to complete a bachelor’s degree in biology.

Students eligible to take more advanced math classes should aim to get through MAT 231 (Calculus II) by the end of the third semester. MAT 160 (Statistics - course development in progress) also is suggested.
